History of the Common Council of the City of Indianapolis

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was established. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermen districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment

of the 1891 Indianapolis Charter, modified to make the Indianapolis system applicable to all classes of cities of the state. The 1905 law increased the term of Mayor and councilmen to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

History of the City-County Council of the City of Indianapolis

In 1969 the legislature enacted a law, popularly known as the "Unigov Act," which consolidated the City and County into one governmental unit. The act further provided for the creation of an interim City-County Council which served as the legislative body for the City and County until the new Council was selected in November, 1971, and took office in January of 1972.

The act provided for the division of the County into twenty-five single member councilmanic districts, each district electing one resident from that district. In addition, there were four at-large councilmen, elected by voters of the entire county.

Unified Government of Indianapolis-Marion County is an attempt to make metropolitan government simpler, more functional and more responsive to citizens' needs. Under the new structure, six major departments replace the more than sixty which were in existence perviously.

A PROPOSAL FOR A GENERAL ORDINANCE adopting a Hazardous Building Code for Indianapolis and Marion County by adding Chapter 11 of Title 6 of the Code of Indianapolis and Marion

County, 1970, repealing other ordinances in conflict, and establishing an effective date.

BE IT ORDAINED BY THE CITY-COUNTY COUNCIL OF THE
CITY OF INDIANAPOLIS AND OF MARION COUNTY:

Section 1. The Code of Indianapolis and Marion County, 1970, is amended by adding thereto Chapter 11 of Title 6, which reads as follows:

TITLE 6

CHAPTER 11

6-1101. Purpose — The purpose of this ordinance is to compel the making safe of buildings which are a danger to the health, welfare, or safety of the community.

6-1102. Definitions — The following terms, as used in this ordinance, shall have these meanings:

- (A) Department of Metropolitan Development: "Department of Metropolitan Development" shall mean that governmental unit which was created and given powers by the provisions of the Acts of 1969, Chapter 173, Sections 801 to 814.
- (B) Division of Code Enforcement: "Division of Code Enforcement" shall mean that unit of government which was created and given power by the provisions of the Acts of 1969, Chapter 173, section 807.
- (C) Hazardous Building: "Hazardous Building" shall mean any building, structure, improvement on real estate, or any part thereof, that:
 - (1) is in an impaired structural condition or state, which renders it unsafe or dangerous to any person or property; or

- (2) is a fire hazard; or
 - (3) is a hazard to the public health; or
 - (4) is a public nuisance; or
 - (5) does not comply with the provision of any ordinance, state law, or federal law applicable in the Consolidated City of Indianapolis and Marion County, establishing standards for building condition or maintenance, the violation of which would be dangerous to any person or property.
- (D) Opening: "Opening" shall mean any aperture in a hazardous building including, (by way of example and not of limitation) windows (with or without glass), doorways (with or without doors), delivery chutes, and vents.
- (E) Person: "Person" shall mean any entity capable of holding an interest in real estate, including (by way of example and not of limitation) individuals and corporations.
- (F) Securing: "Securing" shall mean to continuously prevent access to the interior of the building by accomplishing and maintaining the construction work described in section 6-1104 of this ordinance.
- (G) Substantial Property Interest: "Substantial Property Interest" shall mean generally, any right in real estate susceptible of being affected in a substantial way by actions authorized by this ordinance. It would include a fee interest (such as joint tenancy, tenancy in common, tenancy by entireties and sole ownership), a life estate, or a possessory interest (including leasehold or license).

The interest reflected by a mortgage, land sale contract or lien shall not be deemed a substantial property interest unless the mortgage, land sale contract, or lien:

- (1) is recorded in the office of the county recorder; or
- (2) is a lien arising by operation of law; or
- (3) is the subject of written information received by the Division of Code Enforcement about the mortgage, land sale contract, or lien, which includes the name and address of the holder of such interest.

The phrase "substantial property interest" would not include, ordinarily, an easement, profit or future interest (such as remainder, reversion, or executory interest).

6-1103. Issuance of Orders Relative to Hazardous Buildings — The Division of Code Enforcement may issue an order relative to any hazardous building in the Consolidated City of Indianapolis and Marion County requiring such specific action as is necessary to make it safe for persons or other property. The order shall be issued to:

- (1) any person who has a property interest in the hazardous building that would allow the person to take the action required by the order; or
- (2) any person who has a substantial property interest in the hazardous building.

The ordered action may include (by way of example and not of limitation) one or more of the following:

- (1) securing of the hazardous building
- (2) exterminating of vermin in and about the hazardous building
- (3) correcting any dangerous exterior condition of the hazardous building.

The securing of a hazardous building may not be ordered, however, unless it is an unoccupied building and the interior is accessible to individuals, as, for example, through a broken window or an unlocked door.

6-1104. Standards for Securing — The standards set forth in this section shall be followed in complying with an order which requires the securing of a hazardous building. All openings shall be secured by using the methods and materials specified by this section except openings which are either:

- (1) less than one square foot in area; or
- (2) so located that they are both more than twenty feet above ground level and not accessible from a structure such, for example, as a fire escape

The method of securing openings shall be as follows:

- (A) Plywood, covered with a weather proofing substance such as exterior paint or varnish, similar in color to the exterior of the building, and cut to the inside dimension of the exterior of the opening shall be placed in all openings in such a way that no portion of the plywood extends outside the existing frame. The plywood shall be placed against any existing exterior window slide trim or a furring strip. If there is no slide trim or furring strip, an equivalent block must be installed. The slide trim, furring strip, or block must be sufficient to prevent the plywood from being pushed inward. Such plywood shall be fixed in the opening by means of braces which shall be placed on the interior of the building perpendicular to the longest side of the opening. One brace shall be required for each two feet, or portion thereof, of distance along the longest side of the opening. The braces shall extend across the entire opening at least eight inches (8") past the inside measurement of the frame of the interior of the building. The plywood shall be anchored to the braces with no less than one (1) carriage bolt per foot of brace. The round head of the bolt shall be on the exterior side of the plywood.

Where the inside dimension of the opening exceeds 26 square feet in area, additional exterior support shall be provided by placing continuous pieces of nominal 2" by 4" framing grade lumber on the outside of the plywood in such manner that every carriage bolt used in the opening passes through and joins such a piece of nominal 2" by 4", the plywood and the interior brace. The round head of the bolt shall be on the outside of such pieces of nominal 2" by 4" lumber which gives exterior support. The pieces of nominal 2" by 4" framing grade lumber shall be covered with a weather proofing substance such as exterior paint or varnish, similar in color to the exterior of the building.

In the case of the one ground level door, which is most exposed to view from a public street the following method of securing shall be used. The door shall be placed in good repair (to include but not be limited to: closing any openings in the door, repairing hinges on door, and providing for an adequate closure to the opening), and the door shall be locked by the use of no less than two (2) hasp locks and padlocks to be located equidistant from the top and bottom casing, and each other. If no door exists, or if it is impractical to repair the existing door, such opening shall be secured in the manner described in this paragraph substituting, however, a piece of plywood for the door.

(B) The materials used to secure all openings shall meet the following specifications:

- (1) plywood — shall be no less than (1/2") one-half inch exterior grade
- (2) braces — shall be no less than nominal 2" by 4" framing grade lumber
- (3) bolts — shall be no less than (3/8") three-eighths inch carriage bolts.

The Division of Code Enforcement may allow the use of other materials and methods of securing openings, including the use of

existing doors, if it is shown that, as related to the particular circumstances, the objectives of the ordinance would be met by the use of such materials and methods.

6-1105. Method of Giving Notice — Orders issued in accordance with section 6-1103, 6-1107, or 6-1108 (except where otherwise specifically provided in one of such sections) shall be served in all cases as follows:

- (1) sending a copy of the order by registered or certified mail to the residence or place of business or employment of the person to be notified with return receipt requested; or
- (2) delivering a copy of the order personally to the person to be notified; or
- (3) leaving a copy of the order at the dwelling house or usual place of abode of the person to be notified and sending a copy of the order by first class United States mail to his last known address; or

In the event service cannot be obtained by a means described above after reasonable effort, service may be made by publication. In the case where service may be made by publication, a notice of the order shall be published on three days in a newspaper which is published in the Consolidated City of Indianapolis and Marion County which is authorized by law to publish notices. Publications may be on consecutive days.

When service is made by any of the means described in this section except by mailing or by publication, the person making service

shall make an affidavit stating that he has made the service, the manner in which made, to whom the order was issued, the nature of the order, and the date of service. The affidavit shall be placed on file in the Division of Code Enforcement.

The time when service of the order is deemed made is as follows:

- (1) in case of personal delivery, or the case of leaving at home or place of business, the date when the copy of the order is delivered to the person or left at his home or place of business.
- (2) in the case of sending by registered or certified mail, the date shown on the return receipt, or if no date is shown, the date when the return receipt is received by the Division of Code Enforcement.
- (3) in the case of publication, the date of the third day that publication was made.

6-1106. Content of Order — Any order (except for an order which rescinds previously issued order, the content of which is prescribed by section 6-1108) shall contain the following information:

- (6) a statement indicating what action can be taken by the Division of Code Enforcement in accordance with sections 6-1110, 6-1112, 6-1113 and 6-1114, if the order is not complied with;
 - (7) the name, address, and telephone number of the Division of Code Enforcement.

The order shall allow a sufficient period of time as determined by the Division of Code Enforcement in which to accomplish the required action. In no case shall compliance with an order be required in less than four calendar days.

If service of the order is by publication, the published notice of the order shall include the following information:

- (1) the name of the person to whom the order is issued;
- (2) the legal description or address of the property that is the subject of the order;
- (3) the nature of the order and a brief statement of what action is required by the order;
- (4) a statement that the exact terms of the order may be obtained from the Division of Code Enforcement;

- (9) the name, address, and telephone number of the Division of Code Enforcement.

The order shall allow a sufficient period of time as determined by the Division of Code Enforcement in which to accomplish the required action. In no case shall compliance with an order be required in less than four calendar days.

6-1107. Issuance of Order Which Modifies the Previously Issued Order — The Division of Code Enforcement may issue an order which modifies an order previously issued to that person. The order shall be served in accordance with section 6-1105. If however, the service of the previously issued order was by publication, it shall be sufficient to serve the subsequent order by publication unless the Division of Code Enforcement has received information in writing that would enable it to make service in accordance with section 6-1105 by a method other than publication.

If a person to whom an order has been issued requests a period of time to accomplish the required action beyond that time stated in the order, the Division of Code Enforcement may, as a condition for issuing an order which modifies the earlier order to allow the additional time period, require that the person post a cash performance bond to

be forfeited in the event that the ordered action is not completed within the additional time period allowed. The amount of such bond shall be equal to 100% of the value of the services and materials required to accomplish the ordered action.

6-1108. Issuance of Order Which Rescinds the Previously Issued Order — The Division of Code Enforcement may issue an order which rescinds an order previously issued to that person. Any person who has been issued an order shall be notified about its rescision in accordance with section 6-1105 by means of a written order which shall include the following information:

If service of the order of rescision is by publication, the publication shall include the information required above.

If the service of the order being rescinded was by publication, it shall be sufficient to serve the order of rescision by publication unless the Division of Code Enforcement has received information in writing that would enable it to make service in accordance with section 6-1105 by a method other than publication.

6-1109. Hearing Relative to Order — A hearing shall be held to determine the propriety of any order issued in accordance with section 6-1103 or 6-1107.

This hearing shall be held on a business day no earlier than four calendar days after notice of the order is served. The four calendar day period shall not include the day when service of the order is made, but shall begin to run the first day following the day of service. The day on which the hearing is held shall be included in the four calendar day period.

The hearing shall be conducted by an examiner appointed by the Director of the Department of Metropolitan Development.

The person to whom the order was issued, or any person having a substantial property interest in the hazardous building which is the subject of the order may appear in person or by counsel at the hearing. Such person shall have the opportunity to present evidence, cross examine opposing witnesses, and make argument.

At the conclusion of the hearing the examiner shall, irrespective of whether such person does or does not appear at the hearing, make findings and take action to either:

- (1) affirm the order, or
- (2) rescind the order, or
- (3) modify the order, provided, however, that unless the person to whom the order was issued, or counsel for such person, is present at the hearing, the examiner shall have authority only to modify the order in such manner as to make it less stringent.

If a person to whom an order has been issued requests a period of time to accomplish the required action beyond that time stated in the order, the examiner may, as a condition for modifying the order to allow the additional time period, require that the person post a cash performance bond to be forfeited in the event that the ordered action is not completed within the additional time period allowed. The amount of such bond shall be equal to 100% of the value of the services and materials required to accomplish the ordered action.

The record of the findings made and action taken by the examiner at the hearing shall be available to the public upon request. No provision in this ordinance shall be construed to require affirmative action by the Division of Code Enforcement or the examiner to give notice of the findings made and action taken by the examiner at the hearing to the person to whom the order was issued, or any other person.

6-1110. Authorization to Have Ordered Work Performed by a Contractor If Order Not Complied With — The Division of Code Enforcement may cause the action required by an order to be performed by a contractor if the following has occurred:

- (1) an order has been issued to each person having a substantial property interest in the hazardous building; and
- (2) service of the order as provided by section 6-1105 has been made on each person having a substantial property interest in the hazardous building which is the subject of the order; and
- (3) each of the orders have been affirmed or modified at hearing in such manner that all persons having a substantial property interest in the hazardous building which is the subject of each of the orders are currently subject to an order requiring the accomplishment of substantially identical action; and
- (4) the order, as affirmed or modified at hearing, has not been complied with, or, having once been complied with, is not now being complied with; and
- (5) at least 48 hours have elapsed since the time the order was affirmed or modified at the hearing by the examiner.

Contracts for ordered work in an amount less than or equal to four thousand dollars (\$4,000) shall be awarded without public bid to a contractor duly qualified under the laws of the State of Indiana and any applicable municipal ordinances who has met the insurance requirement of section 6-1111. In all instances it shall be the duty of the Division of Public Purchase to secure information as to the market

prices, reasonable values, and cost of supplies, materials, and services to be purchased or contracted for by obtaining three bids for the required work. The contract may thereupon be awarded to the lowest and best qualified bidder.

Contracts for ordered work in an amount in excess of four thousand dollars (\$4,000) shall be awarded to a contractor duly qualified under the laws of the State of Indiana and any applicable municipal ordinances, who has met the insurance requirement of section 6-1111, at public bid in compliance with the public bid procedures as set out in Ind. Stat. Anno. Sec. 48-7005 (Burns).

6-1111. Liability Insurance — Any contractor who submits a bid pursuant to section 6-1110 or performs work pursuant to sections 6-1110 and 6-1112, shall post and maintain with the Division of Public Purchase a certificate evidencing a public liability and property damage insurance policy naming the applicant and the City of Indianapolis as the insured, indemnifying and saving the City of Indianapolis, its officers, agents, and employees harmless from any and all loss, costs, damages, or expenses, and providing for the payment of any liability imposed by law on such applicant or the City of Indianapolis which may result from or arise out of any acts performed in connection with a contract authorized by sections 6-1110 and 6-1112. Such policy must be approved by the City of Indianapolis Corporation Counsel.

This policy shall be in the amount of not less than one hundred thousand dollars (\$100,000.00) for personal injury, including death, to any one person, and not less than three hundred thousand dollars (\$300,000.00) for injuries, including death, to more than one person, and shall be in the amount of not less than fifty thousand dollars (\$50,000.00) for damage to property.

The policy must contain a provision requiring the insurance company, in the event it intends to terminate or cancel such policy, to file written notice, at least ten days prior to any such action, in the office of the Division of Public Purchase, of this intention. If such notice is filed, or in any event, if the policy is terminated or canceled, said contractor will be ineligible to bid upon contracts authorized by section 6-1110 until such time as a certificate evidencing a new policy of insurance as prescribed in this section is posted with the Division of Public Purchase and approved by the City of Indianapolis Corporation Counsel.

The contractor shall also post with the Division of Public Purchase a certificate evidencing that the applicant is covered by workmen's compensation insurance relative to injuries which result from or arise out of any acts performed in connection with a contract authorized by sections 6-1110 and 6-1112. Such policy must be approved by the City of Indianapolis Corporation Counsel.

6-1112. Method of Collecting Cost of Having Work Performed by a Contractor — The Division of Code Enforcement, acting by and through the City of Indianapolis, shall have a good and valid mechanics' lien for the expense incurred by a contractor in performing pursuant to sections 6-1110, 6-1111, and 6-1112 work required by an order which has been affirmed or modified at hearing by the examiner. Such contractor shall file a notice of mechanics' lien in accordance with Ind. Stat. Anno. Sec 43-703 (Burns), (I.C. 1971, 32-8-3-3), which notice shall include:

- (1) a copy of the order as affirmed or modified at the hearing by the examiner, and
- (2) a statement that a contract has been entered into between the Division of Code Enforcement, acting by and through the City of Indianapolis, and the contractor pursuant to sections 6-1110, 6-1111, and 6-1112, and the name of the contractor.

The amount of the lien shall be the amount due the contractor under the contract which obligates the contractor to perform the work required by an order as affirmed or modified by the examiner at the hearing. The lien shall be effective and perfected and shall be recorded, have the extent, effect and status and be enforced in accordance with state legislation entitling persons performing labor or furnishing materials for the repair of buildings to have a mechanics' lien on realty, which legislation is currently found in Ind. Stat. Anno. Sec. 43-701 to 43-717 (Burns), (I.C. 1971, 32-8-3-1 to 32-8-3-17.).

The Division of Code Enforcement, acting by and through the City of Indianapolis, shall obtain this good and valid mechanics' lien by assignment from such contractor.

The contract between the Division of Code Enforcement, acting by

and through the City of Indianapolis, and such contractor shall contain, but not be limited to, the following terms and conditions:

- (3) The contractor shall meet all of the provisions of any municipal ordinances or state law or regulation which limit or condition his privilege to accomplish the required work;
- (4) The contractor shall record a good and valid mechanics' lien within the prescribed period of time and shall promptly thereafter assign such good and valid mechanics' lien to the Division of Code Enforcement, acting by and through the City of Indianapolis;
- (5) The Division of Code Enforcement, acting by and through the City of Indianapolis, is obligated to pay the contract price to the contractor if the work is properly performed and all the terms and conditions of the contract are met. If the work is not properly performed or if all of the terms and conditions of the contract are not met, there shall be no such obligation to pay for any work performed. In such event, even though the Division of Code Enforcement, acting by and through the City of Indianapolis, does not pay the contractor, the contractor shall promptly release any lien the contractor may have relative to the real estate which was obtained in connection with work performed under a contract entered into between the contractor and the Division of Code Enforcement, acting by and through the City of Indianapolis, pursuant to sections 6-1110 and 6-1112.

- (6) The contract shall make no effort to collect the contract price other than from the Division of Code Enforcement, acting by and through the City of Indianapolis.
- (7) The contractor shall produce all available records and other evidence obtainable or possessed by him which may be required to prove any action by the Division of Code Enforcement, acting by and through the City of Indianapolis, to enforce the lien.
- (8) The Division of Code Enforcement, acting by and through the City of Indianapolis, may, after the contract is awarded, delete a specific portion of the work from the contract which has not been yet accomplished. If a specific portion of the work is deleted, the contractor shall not receive any compensation attributable to the deleted work.

6-1113. Civil Action — The Division of Code Enforcement, acting by and through the City of Indianapolis, may initiate a civil action in a court of competent jurisdiction to restrain any person from violating the provisions of an order.

The court may grant such injunctive relief if the following is shown:

- (1) an order was properly issued to the person; and
- (2) service of the order, as provided by section 6-1105, was made on the person; and
- (3) the person has a property interest in the hazardous building that is the subject of the order that would allow the person to take the action required by the order; and
- (4) the examiner has taken action at a hearing either to affirm or modify the order; and

- (5) no order has been issued by the Division of Code Enforcement and no action has been taken by the examiner subsequent to the action taken by the examiner at the hearing to affirm or modify the order; and
- (6) the building which is the subject of the order is a hazardous building; and
- (7) the order, as affirmed or modified at hearing, has not been complied with, or, having once been complied with, is not now being complied with.

6-1114. Misdemeanor Penalties — The Division of Code Enforcement, acting by and through the City of Indianapolis, may cause to have initiated an action in which the imposition of misdemeanor penalties is requested in a court of competent jurisdiction relative to any person who does not comply with an order. The court shall find any person guilty of a misdemeanor if the following is shown:

- (1) an order was properly issued to the person; and
- (2) service of the order, as provided by section 6-1105, was made on the person; and
- (3) the person has a property interest in the hazardous building that is the subject of the order that would allow the person to take the action required by the order; and
- (4) the examiner has taken action at a hearing either to affirm or modify the order; and

- (7) the order, as affirmed or modified at hearing, has not been complied with, or, having once been complied with, is not now being complied with.

Upon conviction, the person shall be punished by a fine not to exceed \$1,000 or imprisonment not to exceed six months, or both.

6-1115. Power to Demolish Under State Law or Other Municipal Ordinances Not Limited by Compliance with Orders — Compliance with an order issued in accordance with sections 6-1103 or 6-1107, including securing in the manner prescribed by section 6-1104, shall not limit the power of any governmental unit to take action to have a hazardous building demolished, if the condition of the hazardous building justifies demolition under any state law or municipal ordinance applicable to the Consolidated City of Indianapolis and Marion County.

6-1116. Repeal of Previous Ordinance — All ordinances and parts of ordinances in conflict herewith are hereby repealed.

Provided that, prior ordinances shall remain in force with respect to any property presently subject to any legal proceedings for the enforcement of any ordinance otherwise repealed by this section.

6-1117. Severability — If any provision of this ordinance or the application thereof to any person or circumstance is invalid, such invalidity shall not affect the other provisions or applications of this ordinance, which can be given effect without the invalid provision or application, and to this end, the provisions of this ordinance are declared to be severable.

OLD BUSINESS

Mr. Byrum stated that in answer to many questions, the contracts for South Keystone Avenue were being let.

NEW BUSINESS

Mr. Gilmer announced that the Parks and Recreation Committee would meet at 4:00 P.M. in Room 260 of the City-County Building on February 22, 1972.

President Hasbrook requested Mr. SerVaas to take the Chair, so that he could speak on Proposal No. 77, 1972, as a point of personal privilege.

President Hasbrook said he did not concur in the action taken by the council on Proposal No. 77, 1972.

The Proposal was introduced to correct a long-standing inequity, which resulted in those persons who reside inside the Police District paying 100 per cent of the cost of the police department and two-thirds percent of the cost of the patrol and detective services of the Sheriff, from whom they do not receive such services. The council has long had the authority and responsibility to plan for the protection of the people of this community and to provide for all the financing for both the Sheriff's department and the Police department. The idea of a Metropolitan Police Department has been advocated by legislative bills for more than a dozen years. This proposal was not aimed at criticizing the Sheriff for we need both the services of the Sheriff's men and the policeman to provide protection for our citizens. What we do need is a better means of financing the cost of these operations.

What the community needs is to come together and not be divisive, pitting suburbia against the urban area. Those who live in suburbia, in the main, earn their living by employment inside the police district. There should be concern for these employers and for the pensioners, the black citizens and the white citizens, as well, who continue to live within the police district—the old city of Indianapolis. We need all of the citizens of this community to support it if we are to prosper and grow and have the kind of city we are seeking.

There being no further business, on motion of Mr. Griffith, seconded by Mr. Giffin, the meeting adjourned at 7:48 P.M.

We hereby certify that the above and foregoing is a full, true and complete record of the proceedings of the City-County Council of Indianapolis-Marion County held on the 21st day of February, 1972, at 6:30 P.M.

In Witness Whereof, we have hereunto subscribed our

signatures and caused the Seal of the City of Indianapolis to be affixed.

AN ORDINANCE PROVIDING STANDARDS FOR ACCEPTANCE
OF STREETS AND BRIDGES

WHEREAS, the Transportation Board of the Consolidated City of Greater Indianapolis, Indiana, is charged with the responsibility of accepting streets and bridges within its jurisdiction for future maintenance; and the Department of Transportation is charged with the duty and responsibility of maintaining said streets and bridges after acceptance; fixing standards therefor, and

WHEREAS, the Director of the Department of Transportation has recommended that the City-County Council adopt new and improved minimum standards for acceptance of streets and bridges for maintenance within such Consolidated City;

NOW THEREFORE BE IT ORDAINED:

SECTION I.—GENERAL APPLICATION

On and after the effective date of this Ordinance, all streets and bridges not constructed by the Department of Transportation of the Consolidated City of Indianapolis shall be accepted by the Transportation Board into the City of Indianapolis Street System for maintenance only when the requirements of this Ordinance are met; provided, however, that the specifications, standards and requirements of Section II of this Ordinance shall not apply as follows:

A. All streets and bridges for which construction plans were approved prior to January 1, 1970, by an appropriate predecessor agency to the Department of Transportation, if constructed, shall meet the minimum standards of the Metropolitan Subdivision Control Ordinance 58-AO-13, as amended, or Marion County Ordinance 46-1964, so long as the construction is completed and a request for acceptance has been submitted to the Department of Transportation within two (2) years of the effective date of this Ordinance.

B. All streets and bridges for which construction plans were approved by the Department of Transportation prior to the effective date of this Ordinance, shall be constructed in accordance with the approved plans, so long as the construction is completed and a request for acceptance has been submitted to the Department of Transportation within two (2) years of the effective date of this Ordinance.

C. All streets and bridges for which construction plans are submitted to the Department of Transportation within thirty (30) days of the effective date of the Ordinance shall be constructed according to such plans as finally approved, so long as the construction is completed and a request for acceptance has been submitted to the Department of Transportation within two (2) years of the effective date of this Ordinance.

SECTION II.—MINIMUM STANDARDS FOR STREET AND

BRIDGE CONSTRUCTION

Upon written application to the Director of the Department of Transportation with supporting reasons and data, a variance from the requirements of this Section, based upon good engineering judgment, may be granted by the Department of Transportation. This variance,

if granted, shall apply only to the particular streets or bridges between the specified limits named in the application.

PART A. GENERAL REQUIREMENTS

A1. Plans

All streets as designated and labeled upon a proposed plat, instrument of dedication, or construction plan shall be graded, constructed and surfaced in accordance with the satisfactory construction plans and specifications submitted therefor by the developer in accordance with the following specifications and requirements.

a.) Preparation of Plans

Plans for said streets and bridges shall be prepared over the seal and signature of a Professional Engineer or Land Surveyor, licensed by the State of Indiana.

b.) Presentation of Plans for Approval

Plans shall be submitted for review and approval to the various departments that are to assume final maintenance responsibility for the completed work in accordance with the procedures published by that department. In cases of overlapping responsibility, duplicate copies of transmittal letters and plans may be requested by the Department of Transportation.

A2. Starting of Construction

a.) Work shall not be started until plans have been approved by all agencies having jurisdiction over the phase of construction. Copies of the various approvals shall be submitted to all agencies involved upon request.

b.) Written notice shall be given to all affected agencies in accordance with their procedures sufficiently in advance of the start of construction so that those employees charged with the responsibility of inspection may be properly notified. For the Department

of Transportation, written notice shall be given within a minimum of three (3) days in advance of construction; where construction has ceased for ninety (90) days, renotification is required.

c.) Neither the Department of Transportation nor any other affected agency of government shall be obligated to accept any work started prior to approval of plans in accordance with paragraph A1 of this section and notification pursuant to subparagraph b.) of this paragraph. Should a request for acceptance of such work be made, the criteria and requirements for acceptance shall be those in force and effect on the date of the request. Any remedial work determined to be necessary for acceptance by the Department of Transportation or any other affected department shall be done at the developer's expense.

A3. Governing Specifications

Unless otherwise provided in this Ordinance or on the plans and specifications supplied for the project, the Indiana State Highway Commission Standard Specifications current at the time of construction plan approval shall apply to all work performed and to all materials used in all improvements which are to be dedicated to the Department of Transportation for maintenance.

A4. Length of Plan Approval Validity

In the event construction of a street or bridge is not initiated within two (2) years and work completed within four (4) years after the approval of construction plans, such plans shall be presented to the Department of Transportation for re-review, and certain design features may be required to be changed due to changes in design criteria.

PART B. MINIMUM STANDARDS FOR STREET DESIGN

B1. Designation of Street Classification

The designation of street classification shall be approved by the Department of Transportation in accordance with definitions of classification as specified by the Department of Metropolitan Development.

B2. Pavement Width and Length

a.) The minimum width of residential local street pavement, including gutters and curbs, shall be twenty-six (26) feet when the density is two and one-half (2.5) or less lots per gross acre of the total project. If the density is greater than two and one-half (2.5) lots per gross acre of the total project, the minimum width, including gutters and curbs, shall be thirty (30) feet. The maximum total length of a dead-end street shall be six hundred and fifty (650) feet as measured from the intersection of centerlines of the street intersection and the radius point of the cul-de-sac.

b.) All permanently dead-ended streets shall be terminated by cul-de-sacs. The minimum radius of cul-de-sacs on local streets and the minimum radius of curb entering and leaving the turnaround area shall be as shown on Standard Plan 22-01, Type 1. Temporarily dead-ended streets may be permitted in cases in which they are proposed to be and should logically be extended beyond the limits of the plat, but are not yet constructed beyond the plat limits. Adequate easements for turnarounds shall be provided for such temporarily dead-ended streets which extend greater than one lot deep.

c.) The minimum width of residential collector street pavement, including gutters and curbs, shall be thirty-six (36) feet back to back of curbs.

d.) The minimum width of a street within an area zoned non-residential or multi-family shall be thirty-six (36) feet back to back of curbs.

e.) The minimum radius of cul-de-sacs on all streets not covered by B2b.) and the minimum radius of curb entering and leaving the turnaround area shall be as shown on Standard Plan 22-01, Type 2.

f.) If, during the preliminary planning phase, it is deemed necessary by the Department of Transportation that a Thoroughfare, or a portion thereof must be constructed, the developer may be required to construct only part of the full requirements set forth in

the Thoroughfare Plan Ordinance 69-CPS-R5. If this is allowed, the street (and bridges, if required) shall be designed in such a manner that the Thoroughfare may be completed without disturbing this original work, and total proposed right-of-way shall be dedicated to the City of Indianapolis.

B3. Minimum Right-of-Way

The greater of the following shall be the minimum right-of-way required.

- a.) The right-of-way as set forth for future use in the Thoroughfare Plan Ordinance 69-CPS-R5, as amended.
- b.) Local Streets: Fifty (50) feet; fifty (50) foot radius from center of Cul-de-Sac.
- c.) Collector Streets: Seventy (70) feet.
- d.) In areas not zoned under the "Dwelling District Zoning Ordinance of Marion County" at the time of submission of plans for approval: seventy (70) feet.
- e.) The right-of-way set forth in Metropolitan Subdivision Control Ordinance 58-AO-13, as amended.
- f.) Divided streets and one-way streets: as determined by the Department of Transportation.

B4. Normal Crown

The pavement crown for all streets shall be computed at a rate of one quarter ($\frac{1}{4}$) inch per foot.

B5. Grades

- a.) Maximum Grades

1.) The maximum grade of expressways, and primary and secondary Thoroughfares shall be as determined by the Department of Transportation.

2.) The maximum grade for collector streets shall not exceed five (5) per cent.

3.) The maximum grade for local streets shall not exceed seven (7) per cent, except short local streets (not to exceed six hundred (600) feet in total length) where maximum grade shall not exceed twelve (12) per cent.

4.) The maximum grade for cul-de-sacs within the turning area shall not exceed three (3) per cent.

b.) Minimum Grades

The minimum grade of all streets shall be five-tenths (0.5) per cent.

B6. Design Speeds

The design speed is that speed used for design of streets as set forth in various texts, handbooks, etc. for highway design. It is intended that, through controls, both legal and geometric, the operating speed of a typical vehicle will be at or below the current thirty (30) miles per hour legal speed limit for urban districts as set forth in the statutes of the State of Indiana.

a.) The design speed for collector streets shall be thirty (30) miles per hour.

b.) The design speed for local streets shall be twenty (20) miles per hour.

c.) The design speed for all other streets shall be as determined by the Department of Transportation.

B7. Minimum Stopping Sight Distances

- a.) The stopping sight distance for collector streets shall be two hundred and forty (240) feet.
- b.) The stopping sight distance for local streets shall be one hundred twenty-five (125) feet.
- c.) The stopping sight distance for all other streets shall be as determined by the Department of Transportation.

B8. Street Alignment

- a.) The minimum lengths of vertical curves shall be as shown in Standard Plan 26-01.
- b.) Vertical curve shall be considered at all intersections of grade and the maximum grade change without a vertical curve shall be based on comfort and as shown in Standard Plan 26-01. At intersections, the break in grade may be four (4) per cent maximum conforming to the crown of the cross street.
- c.) The minimum centerline radius for a horizontal curve shall be as shown below for the various streets:
 - 1.) Collector—two hundred (200) feet.
 - 2.) Local—one hundred fifty (150) feet.
 - 3.) Short local (650 feet or less in length)—one hundred (100) feet.

It is recognized that these radii are less than the minimum for the various design speeds set forth in part B6. The minimum radii are being used to discourage higher operating speeds than those which may be obtained using the theoretical minimum radii based upon design speed.

d.) Street widths shall be uniform or uniformly tapered for widening through curves. Bulges on curves or at "two leg" intersections shall not be acceptable.

e.) The minimum tangent between reversed minimum radii curves shall be 100.00 feet. In no case may a tangent distance less than 50.00 feet be permitted, except for very large (over 1000 ft.) radii curves which may be reversed with no (0.00 ft.) tangent between curves.

B9. Intersections

a.) An intersection shall have three (3) or more street approaches whose centerlines intersect in a common point.

b.) Street curbs at intersections shall have the greater of the following as a minimum radius:

1.) Between two local streets: twenty (20) feet.

2.) If one or more streets is classified a collector street: twenty-five (25) feet.

3.) If one or more streets is designated as a Thoroughfare in the Thoroughfare Plan Ordinance 69-CPS-R5, as amended, see "e.)" below.

c.) Street intersections shall be as nearly at right angles as is possible, and no intersection shall be at an angle of less than seventy-five (75) degrees.

d.) Street jogs with centerline offsets of less than one hundred fifty (150) feet shall not be permitted.

e.) Intersections of local and collector streets with Thoroughfares shall be in accordance with appropriate sections of the Department of Transportation Access Control Manual and be approved by the Department of Transportation.

f.) The following paragraphs shall be required as a provision of the covenants of all Final Plats:

"No fence, wall, hedge or shrub planting which obstructs sight lines shall be placed or permitted to remain on any corner lot within the triangular area formed by the street property lines and a line connecting points twenty five (25) feet from the intersection of the property lines extended, at the intersection of a collector street and a local street. The above restrictions for the intersection of two (2) local streets shall be a triangle with legs equal to fifteen (15) feet. The same sight line limitations shall apply to any lot, the corner of which is at the intersection of a street property line with an alley line. No trees shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at sufficient height to prevent obstruction of such sight lines."

g.) Trees shall not be planted within the public right-of-way.

B10. Sidewalks

a.) In all platted subdivisions, the necessity of sidewalk installation shall be governed by the Metropolitan Subdivision Control Ordinance 58-AO-13, as amended, and any waivers thereof shall be obtained from the Plat Committee of the Department of Metropolitan Development prior to submission of construction plans for approval. A copy of such waiver shall be submitted with construction plans. For all other streets and bridges, the necessity of sidewalk installation shall be determined by the Director of the Department of Transportation.

b.) The minimum width of sidewalks shall be four (4) feet.

c.) The desirable location of sidewalks shall be four (4) feet from the back of the curb.

B11. Driveways

When shown on construction plans, each driveway shall be designed to meet the following regulations:

a.) The Department of Transportation Access Control Manual;
and

b.) Part E of this Section.

If driveways are not to be installed as a part of the construction a note to that effect shall be placed on the plans.

PART C. MINIMUM STANDARDS FOR STREET CONSTRUCTION

PART D. BRIDGES

D1. Plans and Design

a.) Plans for bridges or structures having clear spans of twenty (20) feet or greater shall be reviewed separately from the street plans. Construction may be separate or combined with the adjacent street at the discretion of the developer.

b.) The bridge shall be designed to meet the criteria set forth in the AASHO Standard Specifications for highway bridges in effect at the time of design, and shall be designed for HS-20 loading.

c.) In order for the Department of Transportation to review the plans for a bridge crossing a waterway of any size, copies of acceptance of the waterway opening by the various other governmental agencies having jurisdiction over stream crossings at the time of design shall be submitted along with the plans. These agencies include, but are not limited to, the Indiana Department of Natural Resources, the U.S. Army Corps of Engineers, and the Department of Public Works of the Consolidated City of Greater Indianapolis.

d.) In the event that construction of the bridge is not initiated within two (2) years and work completed within four (4) years after the approval of construction plans, such plans shall be presented to the Department of Transportation for re-review, and certain design features may be required to be changed due to changes in the design criteria.

PART E. DRIVEWAYS

The type and location of all pipe, culverts, bridges, etc., intended to carry storm water within street rights-of-way shall be approved by the Department of Transportation. Evidence shall be presented at the time of presenting the street plans for approval that application has been made to the appropriate other governmental agencies having jurisdiction over drainage for approval of the size and other hydraulic criteria. The Department of Transportation shall review and approve any drainage structure whose failure could seriously affect the street itself. The Department of Public Works must also review and approve the overall drainage plan.

G1. Culverts

a.) Culverts shall be constructed and installed whenever necessary, to provide adequate drainage, in accordance with the satisfactory construction plans and specifications therefor submitted by the developer.

b.) The locations and size of driveway culverts shall be determined at the time construction plans are prepared for the entire subdivision. However, the minimum size of such culverts shall be no less than twelve (12) inches, but in no case less than that

specified by the approved construction plans and specifications therefor submitted.

c.) Pipe end sections (metal or concrete) shall be used for driveway culverts. See Standard Plans 32-01 and 32-02.

a.) Within street rights-of-way all surface water shall be drained by enclosed drainage systems. All pipes, culverts, intersectional drains, drop inlets, bridges, pipe end sections and similar or related installations necessary to provide adequate surface water drainage of the area, shall be constructed and installed in accordance with the approved plans and specifications submitted therefor by the developer to the various governmental agencies having jurisdiction over drainage.

b.) Storm drainage and surface water installations, including roof downspouts, shall not be connected to or empty into sanitary sewer systems.

G3. Drainage Design Criteria for Streets

a.) Inlet or catch basin spacing shall be designed using the following criteria:

1.) The quantity of water ("Q") in cubic feet per second shall be determined for the area to be drained by the inlet in accordance with the methods outlined by the Department of Public Works.

2.) Rainfall intensity—duration—frequency used in these calculations shall be as taken from information supplied by the Weather Bureau for Indianapolis, Indiana. Copies of charts showing these curves for the years 1903 to 1951 are on file in the Department of Transportation.

Standard Plans, showing details of practices and design for portions of streets and/or bridges for which acceptance may be requested of the Department of Transportation. These Standard Plans are hereby declared to be the Official Standard Plans for the City of Indianapolis for the purpose of achieving uniformity of construction methods, materials and appearance. The said Standard Plans must be followed in construction of applicable portions of streets and bridges to be accepted by the Transportation Board, unless written permission for deviation therefrom is given by the Department of Transportation. The various applicable Standard Plans, with their effective dates, shall be listed on all construction plans submitted for approval to the Department of Transportation.

H2. Revisions, Deletions and Additions to Standard Plans

The Director of Transportation is hereby granted the power and authority to revise the Standard Plans, to delete any of them, and/or to adopt new Standard Plans, when, in his judgment, such revisions, deletions or additions shall be necessary or helpful in order to give guidance to developers and to achieve the purpose of this Ordinance. Any new or revised Standard Plan adopted after the effective date of this Ordinance shall become effective on the date stated thereon which shall be a minimum of thirty (30) days after its approval by the Director of Transportation and shall apply to all construction plans submitted for approval after such effective date. SECTION III.—CONSTRUCTION INSPECTION, ACCEPTANCE & BOND RELEASES

A. INSPECTION OF CONSTRUCTION OF STREETS AND BRIDGES

1. Execution of Inspection Agreement

Prior to the commencement of construction, the developer shall

execute an agreement with the Department of Transportation which will provide that:

a.) The Department of Transportation will employ an inspector to inspect the construction work to insure that such construction meets the requirements of the approved construction plans.

b.) The developer will reimburse the Department of Transportation for the cost of such inspection services determined at the time of execution of the agreement.

c.) Upon completion of construction, the inspector so employed will certify to the Department of Transportation and the developer as to the compliance of such construction with the requirements of the approved construction plans and/or approved change orders.

d.) No action respecting the acceptance of the construction and release of the improvement bond pursuant to paragraph B of this Section or paragraph B of Section V shall be taken until the developer has reimbursed the Department of Transportation in full for the inspection services.

2. Inspection of Construction

a.) All construction of streets and bridges shall be inspected and certified pursuant to the agreement executed under 1, above.

b.) The developer shall furnish the Department of Transportation necessary copies of the approved construction plans.

c.) If construction has already commenced on the effective date of this Ordinance, the developer may continue to provide his own construction inspection. The developer must then furnish, with his application for acceptance under paragraph B of this Section, a certification by a Professional Engineer registered in the State of Indiana that the construction has met the requirements of the approved construction plans. Further, the construction will be inspected by the Department of Transportation, and all deficiencies shall be corrected before acceptance by the Transportation Board.

B. ACCEPTANCE OF CONSTRUCTION**1. Acceptance Request**

Upon completion of construction, the developer or his authorized representative shall make written application for acceptance to the Department of Transportation.

2. Acceptance of Construction and Release of Improvement Bond

If, by law, the street and bridge construction require approval and bonding by the Department of Metropolitan Development, the procedure of this paragraph shall be followed. Otherwise, the procedure of Section V paragraph B shall apply.

a.) Upon receipt of notice of satisfactory completion from the Department of Transportation, the Transportation Board shall take appropriate action to accept the streets and bridges and to notify the Department of Metropolitan Development that the performance has been completed to the Transportation Board's satisfaction and that claims against any improvement bond by the Department of Transportation and the Transportation Board are released.

b.) Prior to acceptance, the Transportation Board shall determine that a maintenance bond meeting the requirements of the Department of Metropolitan Development has been posted with the Department of Metropolitan Development.

C. RELEASE OF MAINTENANCE BOND**1. Procedure**

a.) Not more than six (6) months nor less than four (4) months prior to the expiration date of the maintenance bond, the Department of Transportation shall inspect the streets and bridges covered by such bond.

b.) If no deficiencies are found to exist, the Department of Trans-

portation shall notify the Department of Metropolitan Development in writing that it has no objection to the release of the maintenance bond. Failure of the Department of Transportation to so notify the Department of Metropolitan Development prior to the expiration date of the bond shall be deemed the Department of Transportation's release of all claims against such bond.

c.) If deficiencies are found to exist, the following steps shall be taken:

1.) The Department of Transportation shall notify the Department of Metropolitan Development in writing by hand delivery of the specific deficiencies, requesting that the release of the maintenance bond be withheld until it receives further notice in accordance with paragraph 5.) below. It shall be the duty of the Department of Metropolitan Development to withhold the maintenance bond release until so notified. A copy of such notice shall also be transmitted by first class U.S. Mail to the bonding company by the Department of Transportation.

2.) The Department of Transportation shall notify the developer in writing by first class U.S. Mail of the specific deficiencies, requesting him to take necessary corrective action, and informing him that the maintenance bond release will be withheld until the deficiencies are corrected.

3.) If the developer has not acknowledged receipt of the deficiency notice and/or has not taken any corrective action within sixty (60) days of the transmittal of the first notice pursuant to paragraph 2.) above, the Department of Transportation shall transmit to him by first class U.S. Mail a second and final notice containing the same information as the first notice.

4.) When the developer has corrected all deficiencies, he shall notify the Department of Transportation in writing, and the Department of Transportation shall make a new inspection within fourteen (14) days. If any deficiencies have not been corrected to the Department of Transportation's satisfaction, the Department of Transportation shall notify the developer in the same manner as the original notice pursuant to paragraph 2.) above, and, if necessary, paragraph 3.) above.

5.) In the event that the developer does not correct the deficiencies to the Department of Transportation's satisfaction, the Department of Transportation shall be empowered to have the deficiencies corrected at its expense and to secure reimbursement therefor from the developer and/or the bonding company. Written notice of its intent to pursue this course of action shall be transmitted prior to taking such action to:

- a. The Department of Metropolitan Development by hand delivery; and
- b. The developer and the bonding company by first class U.S. Mail.

6.) When all deficiencies have been corrected to the Department of Transportation's satisfaction in accordance with the criteria in effect at the time of design approval, and any financial liabilities of the developer and/or bonding company to the Department of Transportation arising pursuant to paragraph 5.) above, have been satisfied, the Department of Transportation shall prepare a written document stating this fact and approving release of its interest in the maintenance bond. Such document shall be transmitted to:

- a. The Department of Metropolitan Development by hand delivery;
- b. The developer and the bonding company by first class U.S. Mail.

2. Constructive Notice

Notice made in accordance with 1, above, shall be deemed constructive notice upon all affected parties, whether or not they actually receive such notice.

SECTION IV.—APPEAL FROM ADMINISTRATIVE ACTION

Any person or firm affected by the exercise of any discretionary

authority delegated by this Ordinance to any official of the Department of Transportation and who objects to the decision made or action taken by such official shall be entitled to a hearing before the Transportation Board upon such objection. The person or firm desiring such hearing before the Transportation Board shall file a written statement of his objections with the Director of Transportation who shall call the same to the attention of the Transportation Board. The Transportation Board shall hold such hearing within thirty (30) days after the objections are filed with the Director; and the person or firm making the objections shall be given notice of the time, place and date of said hearing at least ten (10) days before the hearing. After hearing testimony of the objector and the official who made the decision or to the action objected to, the Transportation Board may confirm, reverse, or modify and confirm as modified the decision or action of that official in any manner consistent with the discretionary authority herein delegated by this Ordinance to that official.

SECTION V.—ALTERNATE BONDING PROCEDURE

In the event that the streets or bridges to be accepted for maintenance by the Department of Transportation do not by law require approval and bonding by the Department of Metropolitan Development, the provisions of this Section shall apply to all matters pertaining to bonding in lieu of the provisions of Section III of this Ordinance.

PRESENTATION OF PETITIONS

Mrs. Henri Gibson, Councilwoman from the 9th District, referring to an article in the Indianapolis News concerning the Councilmanic districts' response to a questionnaire on the relative importance of several problem areas to aid the City-County Council in budgeting city funds, stated the 9th District was proud to go on record as giving no response. She stated that the Indianapolis News circulation was far below that of the Indianapolis Star; the 9th District's research team was not asked to participate because of the late date; and she had not seen the questionnaire except in the newspaper. However, Mrs. Gibson did go on record as giving the following response for her district: (1) Unemployment, (2) Housing, (3) Education and (4) Dope.

 - (1) Unusual concentrations in inert suspended solids (such as, but not limited to, fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - (2) Excessive discoloration (such as, but not limited to, dye wastes and vegetable tanning solutions).
 - (3) Unusual BOD (Chemical Oxygen Demand) or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - (4) Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
- (J) Waters or wastes containing substances which are not amenable to treatment or reduction by the wastewater treatment processes employed, or are amenable to treatment only to such degree that the wastewater treatment plant effluent cannot meet the require-

ments of other agencies having jurisdiction over discharge to the receiving waters.

SECTION 5. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 4 of this Article, and which in the judgement of the Director, may have a deleterious effect upon the wastewater works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Director may:

- (A) Reject the wastes,
- (B) Require pretreatment to an acceptable condition for discharge to the public sewers,
- (C) Require control over the quantities and rates of discharge, and/or wastes not covered by existing taxes or sewer charges under the provisions of Section 10 of this article,
- (D) Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Section 10 of this article.

If the Director permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Director, and subject to the requirements of all applicable codes, ordinances, and laws.

SECTION 6. Grease, oil, and sand interceptors shall be provided when, in the opinion of the Director, they are necessary for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand, or other harmful ingredients; except that such interceptors shall be of a type and capacity approved by the Director, and shall be located as to be readily and easily accessible for cleaning and inspection.

SECTION 7. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at his expense.

SECTION 8. When required by the Director, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located and shall be constructed in accordance with plans approved by the Director. The manhole shall be installed by the owner at his expense, and shall be maintained by him so as to be safe and accessible at all times.

SECTION 9. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this ordinance shall be determined in accordance with the latest edition of "Standard Methods for the Examination of Water and Wastewater", published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the wastewater works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premise is appropriate or whether a grab sample or samples should be taken. Normally, but not always, BOD and suspended solids analyses are obtained from 24-hour composites of all outfalls whereas pH's are determined from periodic grab samples.)

SECTION 10. No statement contained in this article shall be construed as preventing any special agreement or arrangement between the City and any industrial concern whereby an industrial waste of unusual strength or character may be accepted by the City for treatment, subject to payment therefore, by the industrial concern.

SECTION 3. The Director and other duly authorized employees of the City bearing proper credentials and identification shall be permitted to enter all private properties through which the City holds a duly negotiated easement for the purposes of, but not limited to, inspection, observation, measurement, sampling, repair, and maintenance of any portion of the wastewater works lying within said easement.

SECTION 1. Regular Meetings. Regular meetings of the Council shall be held on the first Monday of each month at six o'clock (6:00) P.M. prevailing local time in the Council Chamber. In the event that the date of a regular meeting is on a Holiday, observed by state law or local ordinance for employees of the Consolidated City, the regular meeting shall be held on the next succeeding day that is not such a holiday or a Saturday or Sunday, unless the Council by a majority vote at the last preceding regular meeting shall cancel the meeting or postpone it to another date. The time or place of any regular meeting may be changed by majority vote at the last preceding regular meeting.

SECTION 2. Special Meetings. Special meetings may be held on call of the President or forty percent (40%) of the members of the Council, by giving written notice of the time and place of the meeting delivered to each member personally or sent by mail or telegram so that each member has at least seventy-two (72) hours notice of the meeting.

SECTION 3. Statutory Meetings. Statutory meetings shall be held as required by law upon such notice as is provided by the law requiring such meeting; and if such law requires publication of notice, no further notice need be given to members of the Council. As a courtesy to members, the Clerk shall endeavor to give members the same notice as these rules prescribe for special meetings.

SECTION 4. Parliamentary Authority. All meetings of the Council and its Committees shall be conducted in accordance with

the procedures set forth in "Roberts Rules of Order, Newly Revised." except where a different procedure is required by state law, the ordinances of the Police Special Services District, or these rules. A majority of the members of the Council shall decide all matters of procedure not covered by those authorities stated.

SECTION 5. Suspension of the Rules. These rules may be suspended by a two-thirds vote of the elected and qualified members of the Council. If a rule is suspended, a majority of the members present shall decide the procedure to follow in lieu of the suspended rule. The power to suspend these rules shall not apply to rules which are required by statutory or constitutional law.

SECTION 6. Amendment of Rules. These rules may be amended only by adopting an amending ordinance in accordance with these rules, except the approval of the Mayor shall not be required with respect to an ordinance amending these rules.

SECTION 7. Admittance to the Floor. The floor of the chamber shall consist of that portion of the chamber from beyond the last seats of councilmen to the front of the room. No person shall be permitted on the floor of the chamber while the Council is in order other than councilmen, the staff of the Council, and accredited reporters of the news media. The Mayor and other city or county officials may be admitted upon permission from the presiding officer or by a majority vote of the Council. Anyone who is entitled under these rules to address the Council shall be admitted to the floor during the time he is permitted to speak.

SECTION 8. Addresses by other than members. No person other than a member or officer of the Council shall be permitted to address the Council during its meeting except as provided in this rule:

- (a) The President may recognize any distinguished guest under "Introduction and Recognition of Guests and Visitors" and permit a two minute response to the introduction.
- (b) The President may permit any city or county officer or

employee to address the Council in response to a question or request for information by a councilman; such person shall be limited in his reply to two minutes.

- (c) Any councilman desiring that someone be heard that is denied the floor by these rules or the President, may move to recess to a Committee of the Whole Council to hear such person. The motion shall state the person or persons to be heard, the subject or subjects to which the discussion will be limited, and the time to be granted such speaker or speakers. Such motion shall require a second. It shall be privileged and immediately put to vote without debate. The motion shall be carried only if receiving a vote of a majority of the members of the Council. If carried, the meeting shall recess and reconvene as the Committee of the Whole Council in accordance with the motion.
- (d) If the item of business before the Council is one for which a notice of public hearing has been given, the President shall inquire before stating the question whether members of the public desire to be heard on that item. If any person indicates a desire to be heard, the President shall recess the Council to a Committee of the Whole Council for such public hearing. The Committee of the Whole Council may, by majority vote, impose reasonable limits upon the time and number of persons to be allowed to speak.

SECTION 9. Absence of Councilmen. After a meeting shall have been called to order, no member shall absent himself from the Council chamber, without first having been excused by the presiding officer. If the presiding officer refuses to grant such excuse, the member seeking to be excused shall have the right to appeal to a vote of the Council upon his request to be excused, and the affirmative vote of a majority of the members present shall be sufficient to excuse him from further attendance at that meeting of the Council. The question upon excusing a member, notwithstanding the refusal of the presiding officer to do so, shall be a question of privilege, and shall be immediately put to vote by the presiding officer, taking precedence of all other questions and motions that may be before the Council at that time. When any member shall be excused in accordance with the

provisions of this rule, the Clerk shall note in the Journal that such leave was granted, showing whether leave was granted by the presiding officer or by vote of the Council.

SECTION 10. Transgression of Rules: Call Member to Order. If any member, in speaking or otherwise, transgresses the rules of the Council, the presiding officer shall or any member may, call him to order. In which case he shall immediately surrender the floor, unless permitted on motion of another member to explain, and the Council shall, if appealed to, decide the case without debate. If the decision be in favor of the member called to order, he shall be at liberty to proceed, but not otherwise; and if the case requires it, he shall be liable to such censure or such punishment as the Council may deem proper or the law may provide.

SECTION 11. Words excepted to. If a member is called to order for words spoken in debate, the member calling him to order shall indicate the words excepted to, and they shall be taken down in writing at the Clerk's desk and read aloud to the Council; but he shall not be held to answer, nor be subject to the censure of the Council therefor, if further debate or other business shall have intervened.

SECTION 12. Time Limit on Speaking. No member shall speak more than twice, nor for more than five minutes on each occasion, upon any one question in debate during the same session or meeting, without leave of the Council, except in explanation, unless he be the mover, proposer or introducer of the matter pending, in which case he shall be permitted to speak in reply, but not until every other member choosing to speak shall have spoken.

RULE 3 — COMMITTEES

SECTION 1. Permanent Committees. The permanent committees of the Council shall be as follows:

Committee of the Whole Council.

SECTION 2. Committee of the Whole Council. The Committee of the Whole Council shall consist of every duly elected or appointed and acting member of the Council. The Council shall, by declaration of the President or by motion duly carried, form itself as a Com-

mittee of the Whole Council whenever by statute or under these rules the public is entitled to a hearing before the Council. This committee may also function in the manner of a standing committee upon any matter referred to it by the President or upon motion of the Council. The President shall be chairman of the Committee of the Whole Council, but may designate another member to preside or act as chairman at such times and for such periods as he may designate.

SECTION 3. Special Committees. Special committees may be formed by the President or vote of the majority of the members of the Council for any specific purpose proper for Council consideration. Special committees shall consist of an odd number of members and have at least one minority member.

SECTION 4. Investigating Committees. Investigating Committees may be formed by resolution of the Council for any lawful purpose. The resolution establishing such committee shall specify the membership of such committee, the general nature of its investigation, and the powers to subpoena witnesses, if such power be granted.

RULE 4 — PETITIONS, MEMORIALS, SPECIAL RESOLUTIONS AND COUNCIL RESOLUTIONS

SECTION 1. Petitions. Any petition directed to the Council, whether specifically authorized by law or not, shall be filed with the Clerk and called to the attention of the Council by the Clerk under the proper order of business. If the petition is one specifically authorized by law, the President shall refer it to a proper committee. As to all other petitions, any motion for referral or other appropriate action shall be in order, unless the motion requires action which is proper only by general resolution or ordinance. In calling the petition to the attention of the Council, the Clerk need not read the petition in full but shall report fairly describing its contents.

SECTION 2. Memorials and Special Resolutions. Any proposal which contemplates a resolution or other action by the Council in the nature of a memorial, commendation or other admonishment or proclamation, shall be designated "A SPECIAL RESOLUTION." Such proposal shall be properly before the Council for final action

unless the President refers or the Council refers or tables the proposal.

SECTION 3. Council Resolutions. Any proposal which contemplates action relating only to the internal procedures of the Council, its finances, or its staff, or relates to appointments or confirmation of appointments made exclusively by the Council, shall be designated: "A COUNCIL RESOLUTION." Such proposal shall be properly before the Council for final action at the same meeting at which it is introduced, unless the President refers or the Council refers or postpones it.

RULE 5 — ORDINANCES AND GENERAL RESOLUTIONS

SECTION 1. Action by Ordinance or General Resolution. All actions of the Council, except as provided in Rule 4, shall be taken by ordinance or general resolution. Ordinances or general resolutions shall be designated in one of the following classes:

General Ordinances
Fiscal Ordinances
Special Ordinances
General Resolutions

Any proposal for action by the Council by ordinance or general resolution shall be in writing, and entitled in the following form: "_____ No.____, 19____" inserting the class of ordinance or general resolution, the number and year as assigned by the Clerk, and the subject matter of the proposal.

SECTION 2. Initiation of Proposal. A proposal for an ordinance or general resolution is initiated when 50 copies of the written proposal are submitted to the Clerk in proper form bearing the written approval of the General Counsel on at least 5 copies. A proposal may be initiated by any councilman or other person authorized by law, but the person initiating such proposal shall sign the original proposal or such other form as required by the Clerk to record the source of the proposal. When all steps required by this Rule are completed the Clerk shall assign the proposal a number. If such steps are completed one

full business day prior to a meeting of the Council, the proposal shall be entered on the agenda of that meeting for introduction.

SECTION 3. Drafting of Proposals and Approval as to Form. The General Counsel, upon request of any councilman, the Director of the Department of Public Safety, the city controller, or other persons authorized by law to initiate an ordinance or resolution, shall review any suggested ordinance or resolution and cause same to be placed in proper form for initiation and shall draft appropriate proposals for any councilman or city official. Such requests shall be made sufficiently in advance as to give adequate time for compliance with the request. The General Counsel shall, within five working days after receiving the request, advise when the requested action will be completed. In general, the General Counsel shall have five working days in which to draft fiscal ordinances or code amendments. If the General Counsel has previously reviewed the proposal, he shall have at least three working days in which to place the proposal in final form and approve it for initiation. If the General Counsel refuses to approve a proposal for legal reasons, he shall so advise in writing stating briefly those reasons.

SECTION 4. Fiscal Ordinances. No proposal for a fiscal ordinance shall be initiated unless approved by the proper fiscal officer of the city or county or unless that officer has been notified by the Clerk of its receipt at least seven days before introduction.

RULE 6 — STAGES OF CONSIDERATION OF PROPOSALS

SECTION 1. Introduction of Proposals. Proposals shall be introduced and presented to the Council only in the following manner: Under the proper item of business, the Clerk shall read the proposal, stating only the number, reciting the title, and stating the name of the person initiating the proposal. After each proposal is introduced the President shall state the committee to which the proposal is referred, or if the proposal has been previously referred to committee, the committee to which the referral was made. If, by law, a public hearing before the entire Council is required, the President shall state the date of such public hearing.

SECTION 2. Committee Reports. Whenever a committee acts to return a proposal to the Council, the chairman shall so inform the Clerk stating in writing whether the committee recommends adoption

or denial or reports without recommendation. The Clerk shall then place the proposal upon the agenda of the Council under the order of business "Special Orders — Final Adoption of Proposals" in the order of receipt of notification of committee action, which may be at the same meeting at which the committee acts.

SECTION 3. Public Hearings. Whenever a proposal is such that by law a hearing must be held before the entire Council, the Clerk shall advertise the hearing on the date set by the President and place the proposal on the agenda for that meeting under the order of business "Special Orders — Public Hearings" in the order of introduction.

SECTION 4. Consideration for Final Adoption. No proposal for an ordinance or general resolution shall be considered for final adoption except when placed upon the agenda as a Special Order. Under the order of business "Modification of Special Orders," it shall be in order to move to advance any proposal, then introduced to "Special Order — Final Adoption of Proposals." If the motion be to advance a proposal first introduced at the same meeting, such motion shall be carried only if twelve members vote in the affirmative and the proposal has been distributed in advance of the meeting.

- (a) No proposal for an ordinance shall be adopted at the same meeting or on the same day of introduction, unless
 - (1) The ordinance is adopted by unanimous consent of the Council members present and at least two-thirds of all members are present and voting, or
 - (2) The ordinance was initiated by a Director, Board or Commission and does not provide for an appropriation or tax levy or the incurring of general obligation indebtedness, or
 - (3) The ordinance is for the re-appropriation or transfer of funds previously appropriated by the annual budget ordinances.

- (b) Upon reaching the order of business "Special Orders —

Public Hearings," the President shall inquire as to each proposal if members of the public desire to be heard on that proposal. If any appear wishing to be heard, the Council shall recess to a Committee of the Whole Council as provided in these Rules. If none desire to be heard or upon reconvening the Council, the President shall state that the question before the Council is: "Shall Ordinance or Resolution No._____ be adopted?"

- (c) Upon reaching the order of business "Special Orders — Unfinished Business" and the order of business "Special Orders — Final Adoption of Proposals," the President shall state with respect to each proposal in the order listed in the agenda that the question is: "Shall Ordinance or Resolution No._____ be adopted?"
- (d) If after the President has stated the question on final adoption and the Council has postponed the final vote or if on final vote the proposal fails to obtain the necessary vote for adoption or defeat, the proposal shall be placed on the agenda of the next meeting under the order of business: "Special Orders — Unfinished Business," unless it be referred back to committee or tabled or postponed to a time certain or indefinitely.
- (e) The presiding officer may state the question of final adoption jointly on more than one ordinance or resolution but if any councilman objects the roll call on adoption shall be taken separately on each proposal.
- (f) When the President has stated the question on final adoption, he shall first recognize the chairman of the committee to which the ordinance and resolution was referred and then the councilman introducing the proposal, if there be one. After those have spoken or declined to speak, any councilman may be recognized for debate or any other matter properly in order. If the committee has recommended that the proposal be amended, the chairman shall move the amendment and the amendment shall be disposed of before further debate occurs except as to the amendment.

SECTION 5. Amendments. No amendment to a proposal shall be in order unless in writing and copies presented to the President and Clerk. Any amendment may be referred, delayed, or otherwise disposed of without delay or prejudice of the proposal itself. The adoption of any amendment not having the prior approval of the General Counsel as to form shall have the effect of tabling the proposal until the next meeting.

SECTION 6. Reconsideration after Veto. If the Mayor vetoes any ordinance or general resolution of the Council, upon receipt of the communication from the Mayor so informing the Council, or at either of the next two succeeding regular meetings of the Council, any member may move to have the ordinance or general resolution made a special order of unfinished business. Upon coming to that order of business, the President shall state the question: "Shall the ordinance or resolution be effective notwithstanding the veto?" If the question receives the statutory majority of two-thirds ($\frac{2}{3}$) of the members of the Council, the ordinance shall be in effect. If the veto is of one or more items of appropriation, the motion to make a special order of business shall specify which items shall be considered for adoption notwithstanding the veto; and upon consideration of those items, any member may require that the question be separately put on any one or more of the vetoed items.

RULE 7 — PROCEEDINGS AND MOTIONS

SECTION 1. Roll Call Votes. All votes upon the final adoption of Proposals for ordinances or general resolutions, motions to reconsider, or motions to suspend the rules shall be by roll call vote. If electronic or mechanical voting systems are installed for use of the Council, the recording of the vote by such methods shall be the same as a vote by calling the roll and may be used for the roll call at the opening of a meeting and to determine a quorum. All ordinances or resolutions shall be adopted solely upon the affirmative vote of a majority of all members of the Council. All members present shall vote on all roll call votes except where permitted to abstain by vote of a majority present after stating the reasons therefor.

SECTION 2. Order of Business. The order of business at each regular meeting and at each special meeting, unless otherwise stated in the call, shall be as follows:

- l. Unfinished Business
- m. New Business
- n. Announcements and Adjournment

SECTION 3. Motions during debate. When a question is under debate, including while special orders are under consideration, no motion shall be considered except one of the following, which motions shall take precedence in the order stated:

- a. To adjourn
- b. For the previous question
- c. To postpone to a time certain
- d. To recommit to a committee
- e. To amend
- f. To postpone indefinitely

When a question is under consideration, a motion to amend and a motion to amend that amendment shall be in order, but no further motion to amend shall be in order until the disposition of that motion.

SECTION 4. Previous Question. The form of the previous question shall be: "Shall the debate now close?" The motion for the previous question shall require a majority of those voting and shall be decided without debate. All incidental questions of order, arising after a motion is made for a previous question and pending such motion, shall be decided, whether on appeal or otherwise, without debate. When the previous question has been ordered on a proposition under debate, the proponent of the question shall have two minutes to close the debate; immediately following which the previous question shall be decided.

SECTION 5. Motion to Adjourn or Recess. A motion to adjourn or recess shall be in order except:

- a. when a member is speaking
- b. while the same item of business is pending during which such a previous motion was defeated
- c. during a roll call

A motion to recess shall take precedence over a motion to adjourn.

SECTION 2. Committee Reports. Whenever a committee acts to return a proposal to the Council, the chairman shall so inform the Clerk stating in writing whether the committee recommends adoption or denial or reports without recommendation. The Clerk shall then place the proposal upon the agenda of the Council under the order of business "Special Orders — Final Adoption of Proposals" in the order of receipt of notification of committee action, which may be at the same meeting at which the committee acts.

SECTION 3. Public Hearings. Whenever a proposal is such that by law a hearing must be held before the entire Council, the Clerk shall advertise the hearing on the date set by the President and place the proposal on the agenda for that meeting under the order of business "Special Orders — Public Hearings" in the order of introduction.

SECTION 4. Consideration for Final Adoption. No proposal for an ordinance or general resolution shall be considered for final adoption except when placed upon the agenda as a Special Order. Under the order of business "Modification of Special Orders," it shall be in order to move to advance any proposal, then introduced to "Special Order — Final Adoption of Proposals." If the motion be to advance a proposal first introduced at the same meeting, such motion shall be carried only if twelve members vote in the affirmative and the proposal has been distributed in advance of the meeting.

- (a) No proposal for an ordinance shall be adopted at the same meeting or on the same day of introduction, unless

- (1) The ordinance is adopted by unanimous consent of the Council members present and at least two-thirds of all members are present and voting, or
 - (2) The ordinance was initiated by a Director, Board or Commission and does not provide for an appropriation or tax levy or the incurring of general obligation indebtedness, or
 - (3) The ordinance is for the re-appropriation or transfer of funds previously appropriated by the annual budget ordinances.
- (b) Upon reaching the order of business "Special Orders — Public Hearings," the President shall inquire as to each proposal if members of the public desire to be heard on that proposal. If any appear wishing to be heard, the Council shall recess to a Committee of the Whole Council as provided in these Rules. If none desire to be heard or upon reconvening the Council, the President shall state that the question before the Council is: "Shall Ordinance or Resolution No._____ be adopted?"
- (c) Upon reaching the order of business "Special Orders — Unfinished Business" and the order of business "Special Orders — Final Adoption of Proposals," the President shall state with respect to each proposal in the order listed in the agenda that the question is: "Shall Ordinance or Resolution No._____ be adopted?"
- (d) If after the President has stated the question on final adoption and the Council has postponed the final vote or if on final vote the proposal fails to obtain the necessary vote for adoption or defeat, the proposal shall be placed on the agenda of the next meeting under the order of business: "Special Orders — Unfinished Business," un-

less it be referred back to committee or tabled or postponed to a time certain or indefinitely.

- (e) The presiding officer may state the question of final adoption jointly on more than one ordinance or resolution but if any councilman objects the roll call on adoption shall be taken separately on each proposal.
- (f) When the President has stated the question on final adoption, he shall first recognize the chairman of the committee to which the ordinance and resolution was referred and then the councilman introducing the proposal, if there be one. After those have spoken or declined to speak, any councilman may be recognized for debate or any other matter properly in order. If the committee has recommended that the proposal be amended, the chairman shall move the amendment and the amendment shall be disposed of before further debate occurs except as to the amendment.

SECTION 5. Amendments. No amendment to a proposal shall be in order unless in writing and copies presented to the President and Clerk. Any amendment may be referred, delayed, or otherwise disposed of without delay or prejudice of the proposal itself. The adoption of any amendment not having the prior approval of the General Council as to form shall have the effect of tabling the proposal until the next meeting.

SECTION 6. Reconsideration after Veto. If the Mayor vetoes any ordinance or general resolution of the Council, upon receipt of the communication from the Mayor so informing the Council, or at either of the next two succeeding regular meetings of the Council, any member may move to have the ordinance or general resolution made a special order of unfinished business. Upon coming to that order of business, the President shall state the question: "Shall the ordinance or resolution be effective notwithstanding the veto?" If the question receives the statutory majority of two-thirds ($\frac{2}{3}$) of the members of the Council, the ordinance shall be in effect. If the veto is of one or more items of appropriation, the motion to make a special order of business shall specify which items shall be considered for adoption

notwithstanding the veto; and upon consideration of those items, any member may require that the question be separately put on any one or more of the vetoed items.

RULE 7 — PROCEEDINGS AND MOTIONS

SECTION 1. Roll Call Votes. All votes upon the final adoption of Proposals for ordinances or general resolutions, motions to reconsider, or motions to suspend the rules shall be by roll call vote. If electronic or mechanical voting systems are installed for use of the Council, the recording of the vote by such methods shall be the same as a vote by calling the roll and may be used for the roll call at the opening of a meeting and to determine a quorum. All ordinances or resolutions shall be adopted solely upon the affirmative vote of a majority of all members of the Council. All members present shall vote on all roll call votes except where permitted to abstain by vote of a majority present after stating the reasons therefor.

SECTION 2. Order of Business. The order of business at each regular meeting and at each special meeting, unless otherwise stated in the call, shall be as follows:

- a. Roll Call
- b. Call for corrections of the Journal
- c. Official communications from the Mayor and other city and county officials
- d. Presentations of Petitions, Memorials, Special Resolutions and Council Resolutions

- k. Special Orders — Final Adoption of Ordinances or General Resolutions
- l. Unfinished Business
- m. New Business
- n. Announcements and Adjournment

SECTION 3. Motions during debate. When a question is under debate, including while special orders are under consideration, no motion shall be considered except one of the following, which motions shall take precedence in the order stated:

- a. To adjourn
- b. For the previous question
- c. To postpone to a time certain
- d. To recommit to a committee
- e. To amend
- f. To postpone indefinitely

When a question is under consideration, a motion to amend and a motion to amend that amendment shall be in order, but no further motion to amend shall be in order until the disposition of that motion.

SECTION 4. Previous Question. The form of the previous question shall be: "Shall the debate now close?" The motion for the previous question shall require a majority of those voting and shall be decided without debate. All incidental questions of order, arising after a motion is made for a previous question and pending such motion, shall be decided, whether on appeal or otherwise, without debate. When the previous question has been ordered on a proposition under debate, the proponent of the question shall have two minutes to close the debate; immediately following which the previous question shall be decided.

SECTION 5. Motion to Adjourn or Recess. A motion to adjourn or recess shall be in order except:

- a. when a member is speaking
- b. while the same item of business is pending during which such a previous motion was defeated
- c. during a roll call

A motion to recess shall take precedence over a motion to adjourn.

SECTION II. The ordinance shall be in full force and effect from and after its adoption.

There being no further business before the Council, on motion of Mr. Kimbell, seconded by Mr. Gorham, the Council adjourned at 6:50 P.M.
